CHANCES Health Clinic

Families come in all shapes and sizes but keeping them healthy can be hard work.

CHANCES is pleased to offer primary health care services to CHANCES children and families who do not have a Family Doctor or Nurse Practitioner.

The CHANCES Health Clinic is a nurse practitioner led clinic. Nurse Practitioners are registered nurses with advanced education and nursing experience.

Nurse practitioners work with doctors, nurses and specialists to make sure you receive the very best care available. When families are healthy, families are happy.

Nurse Practitioner Services

- *Comprehensive health assessments*
- *Diagnosis & treatment of medical conditions*
- *Order & interpret laboratory and other tests*

www.chancesfamily.ca

Nurse Practitioner Services

- *Refer to specialty medical & community services as needed*
- *Order x-rays and ultrasounds as needed*
- *Holistic health care focused on health promotion & illness prevention*

Nurse practitioners understand and respect the importance of family and community in maintaining wellness and in creating caring relationships.
